TFL15_

TFL12_

Tiles can be supplied cutted at the different heights than the standard - maximum height 100 cm

When laydown the tiles, they should be placed side by side with a space of about 1 - 2 mm between the tiles.
45° angles on the back of the tiles could be provided for special corner application

NOTES:

FLUTED TILE is handcrafted made from natural raw materials wet pressed. It may therefore present differences in sizing, flatness, surface irregularities and variations in shades that should be considered as features of the material, and cannot considered defects. During installation, those features should be use to enhance the aesthetic effects.
